# VISION, MISSION, CORE VALUES

## Our Vision

To be the leading force in integrated national development, shaping the future of Bangladesh and emerging economies through innovation, precision, and strategic partnerships.

We envision a Bangladesh where defense is secure, healthcare is world-class, infrastructure is resilient, and innovation is indigenous—and we aim to be at the center of that transformation.

Our vision is rooted in our commitment to delivering mission-driven solutions that not only respond to the present but also anticipate the needs of tomorrow.

## Our Mission

Our mission is to deliver turnkey, future-ready solutions that solve real-world challenges in defense, healthcare, homeland security, infrastructure, technology, and logistics.

We combine deep local insight with global expertise to develop sustainable and scalable projects that protect national interests, improve lives, and drive economic growth.

By engaging in public-private partnerships, foreign investment collaborations, and technology transfer, we unlock strategic opportunities that create value for the nation and our stakeholders.

## Our Core Values

### Integrity

We operate with transparency, accountability, and ethical responsibility in every engagement. Our actions reflect our words, and our partnerships are built on trust.

### Innovation

We embrace emerging technologies and are constantly evolving our offerings. From autonomous systems to AI-powered security and smart healthcare, innovation is embedded in our DNA.

### Excellence

We commit to the highest standards of quality and operational precision—whether it's a hospital, a UAV, or a national infrastructure program. Our goal is to deliver nothing short of world-class.

### Partnership

We believe in collaborative success. Whether with governments, global OEMs, or institutional investors, we prioritize relationships that are mutually beneficial, long-term, and purpose-driven.

# Leadership

**M Khalid Anwar**  
**Managing Director**  
**Arian Industries Bangladesh**

M Khalid Anwar holds a master's degree in Management and brings over 27 years of entrepreneurial expertise. As the Founder and CEO of Wheels Incorporation, he leads a diversified portfolio of businesses spanning the automobile industry, pharmaceuticals, defense equipment supply, leather manufacturing and export, manpower export, and the construction and development sector. With the distinction of holding a rare defense equipment supply license, Mr. Anwar is recognized for his strategic vision and commitment to driving growth and innovation across industries, making significant contributions to the local business landscape.

**Taofiq Latif**  
**Chairman**  
**Arian Industries Bangladesh**

With nearly two decades of experience in the financial services industry, Tim has honed his expertise in senior roles at both HSBC and Commonwealth Bank of Australia. Currently based in Dhaka, Bangladesh, Tim is dedicated to offering high-quality consultation services and funding solutions to a diverse range of industries, including infrastructure, healthcare, resorts, defense and aerospace etc. A Master's of Business, Bachelor of Commerce (Economics and Finance) and Diploma of Financial Planning from Finsia Australia he has received extensive education in the field. Tim's unparalleled knowledge and skills make him a valuable asset to any organization seeking financial guidance and solutions. Tim is a qualified licensed financial adviser in Australia since 2007.

**Azhar Alam**  
**Director**  
**Arian Industries Bangladesh**

Mr. Azhar Alam hails from distinguished lineage and is renowned for his entrepreneurial acumen and astute business sense. As a third-generation businessman, he has successfully upheld and expanded the family legacy, demonstrating exceptional leadership and vision. At Wheel Incorporation, Mr. Alam oversees diverse business interests, including business development and project management. Furthermore, he is responsible for maintaining relationships with all stakeholders. He is also engaged in other businesses of manufacturing, import, real-estate, infrastructure and defense and aerospace projects. He is a trailblazer in security system projects within Bangladesh having overseen critical installations in government and private organizations. His reputation as a respected businessman underscores his credibility and influence within the industry.

**Zubair Rahman**  
**Director**  
**Arian Industries Bangladesh**

Zubair Rahman is a versatile professional with a Bachelor of Science in Computer Science and Engineering and brings over 10 years of entrepreneurial experience at such a young age. With a strong foundation in technology, Zubair has accumulated extensive experience working with multiple start-ups and companies, driving innovation and growth in the defense and aerospace, technology and garments sector. Mr. Zubair is a powerhouse in the defense and aerospace sector with a vast network of foreign manufacturers and partners. His unwavering vision to bring cutting-edge defense and aerospace technology to the forefront of Bangladesh and secure its borders and homeland gives him a significant presence in the industry.

# Message from the MD

Dear Partners,

It is with great pride and optimism that I welcome you to explore the world of opportunities with Arian Industries Bangladesh Ltd.

As a dynamic, multi-sector enterprise, our mission is simple yet bold: to drive national development by delivering high-impact, future-ready solutions across defense, healthcare, infrastructure, logistics, and industrial innovation. In a rapidly evolving global landscape, Bangladesh stands at the threshold of transformation—and Arian Industries is positioned at the forefront of that journey.

Over the past decade, we have built a track record of trust by delivering projects that matter. From securing the nation's most iconic infrastructure like the Karnaphuli Tunnel, to developing state-of-the-art hospitals and leading public-private partnerships (PPP) for national security, our work reflects both scale and precision.

Today, we have a prospect for building a 600-bed super-specialized hospital in Chattogram, and a 500-bed medical city in Dhaka, and advancing UAV and AI-based defense technologies in collaboration with global leaders.

But beyond what we have achieved lies our greatest strength—our partnerships. Whether it is Varex Imaging, EdAir, SeeThru AI, or the Bangladesh Armed Forces, every venture we embark upon is rooted in shared purpose, mutual respect, and long-term value creation.

This is an invitation—to join hands with us in ventures that not only promise returns, but create impact. Whether you are an investor, technology partner, institutional stakeholder, or visionary entrepreneur, there is a place for you at Arian Industries.

Let's build. Let's protect. Let's lead.

Sincerely,  
M. Khalid Anwar  
Managing Director  
Arian Industries Bangladesh Ltd.

# Industries

We are a dynamic company multi-faceted company bringing specialized expertise to create impactful, innovative, and high-value solutions across multiple industries.

## **Infrastructure and Real Estate Development**

We develop, manage, and invest in large-scale infrastructure and real estate projects, including commercial complexes, industrial parks, smart logistics hubs etc. Our solutions are sustainable, tech-enabled, and tailored to support rapid urbanization and economic growth in emerging markets.

## **Healthcare Investment and Turnkey Solutions**

Arian Industries Bangladesh is a strategic partner for healthcare development, offering fully integrated turnkey hospital and medical infrastructure solutions. From planning and design to equipment procurement, staffing, operations, and investment structuring, we enable the development of world-class multi-specialty hospitals, clinics, and diagnostic centers—especially in PPP and foreign operator-led models.

## **Automotive Industry**

We are involved in the import and distribution of automotive parts and complete vehicle solutions. Our scope includes collaboration with global OEMs, localization of supply chains, and introduction of electric vehicle (EV) infrastructure, aligning with Bangladesh's evolving mobility ecosystem.

## **Pharmaceuticals Industry**

Our Managing Director is a major shareholder in Desh Pharmaceuticals, a well-established and rapidly growing pharmaceutical company in Bangladesh.

## **Electronics Industry**

Manufacturer and assembly plant for consumer electronics with a floor space of 8000+ sqft. We cater to the mass audience as importers, assemblers and distributors of consumer electronics.

## **Comprehensive Turnkey Solutions**

Arian Industries Bangladesh is a turnkey solutions provider catering to every industry, offering end-to-end project management, industrial supply chain solutions, and financial structuring. Our expertise extends to high-tech defense and homeland security, supplying advanced surveillance, cybersecurity, and military-grade equipment to safeguard national security interests.

# Industries

## Energy Solutions – Powering the Future

We are a key player in the petroleum and energy sector, providing cutting-edge energy solutions that ensure efficiency, reliability, and sustainability.

- Refinery & Oil Derivative Supply – Expertise in oil refining, storage, and distribution of high-quality petroleum products.
- Clean Energy – Investment in renewable energy projects, including solar, wind, and green hydrogen to support global sustainability goals.

## Strategic Investments – Driving Growth

Through our partners, we facilitate high-value investments across multiple sectors, unlocking strategic opportunities for growth and development.

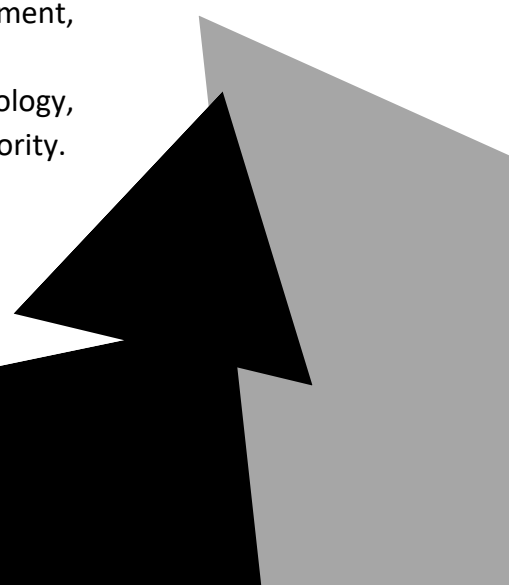

- Healthcare – Financing and developing state-of-the-art hospitals, medical technology, and specialized healthcare projects, ensuring advanced medical infrastructure.
- Hospitality – Investment in luxury hotels, resorts, and hospitality infrastructure, fostering tourism and economic development.
- Infrastructure & Industrial Projects – Structuring investments in large-scale industrial and infrastructure projects, driving national progress.

## Advanced Security & Defense Solutions – Strengthening National Security

Arian Industries Bangladesh is a trusted supplier of super high-tech security and defense solutions, equipping nations with the latest in modern defense technology.

- Non-Intrusive Screening – Advanced cargo and passenger screening systems for airports, ports, and border security.
- Unmanned Solutions – Autonomous surveillance, UAVs, and robotic defense systems for enhanced operational efficiency.
- Counter-Unmanned Aerial Vehicle (CUAV) Solutions – Cutting-edge anti-drone technology for airspace security.
- Armored Vehicles – Supply of tactical armored vehicles for law enforcement, military, and VIP security.
- Arms & Ammunition – Providing next-generation defense technology, including precision weaponry and munitions to ensure operational superiority.

Let's build the future together.

# OUR PARTNERS

# NON INTRUSIVE SCREENING

Arian Industries Bangladesh is a trusted provider of advanced Non-Intrusive Screening (NIS) solutions, delivering cutting-edge security and inspection technologies. Through strategic partnerships with Varex and SeeThru AI, we offer state-of-the-art solutions tailored for border security, critical infrastructure protection, and cargo inspection.

## Varex Imaging Solutions:

- Industry-leading X-ray imaging technology
- High-resolution digital detectors for precise threat detection
- Scalable solutions for baggage, cargo, and vehicle screening
- Proven performance in security and industrial applications

## SeeThru AI Solutions:

- AI-powered image analysis for automated threat detection
- Enhanced material discrimination using advanced machine learning
- Real-time anomaly detection for faster and more accurate inspections
- Seamless integration with existing security infrastructure

By combining Varex's superior imaging technology with SeeThru AI's intelligent analytics, Arian Industries Bangladesh ensures next-generation screening solutions for enhanced security, efficiency, and reliability.

- OEM of Linear Accelerators
- 70+ Years in the field of X-ray imaging
- Global supply and service presence
- Innovator in X-ray imaging
- Experts in security and screening in ports and borders

Arian Industries Bangladesh are authorized distributors

- Pioneer in Backscatter technology
- Introduced Nano-dose in live screening of vehicles
- AI-driven inspection
- World renowned R&D team for constant development
- Arian Industries Bangladesh are authorized distributors

# Unmanned Technology

Arian Industries Bangladesh is at the forefront of UAV technology, delivering mission-specific, fully customized UAV solutions for any scenario. By partnering with industry leaders EdAir and RV Connex, we integrate cutting-edge capabilities to meet diverse operational needs.

## EdAir Capabilities:

- Advanced UAV design and manufacturing
- High-endurance and long-range UAV platforms
- AI-powered autonomous flight systems
- ISR (Intelligence, Surveillance, Reconnaissance) solutions
- Multi-mission payload integration
- Armament Payload Capabilities
- 3D Mapping and Geofencing
- Secure communication and data link solutions
- Starlink compatibility for unlimited range
- VTOL Options
- UVG and USV capabilities as well
- Unmanned Helicopter

## RV Connex (RVC) Capabilities:

- Combat-proven UAV systems for defense and security applications
- Electronic warfare and counter-drone technology
- Precision strike and tactical UAV development
- Secure communication and data link solutions
- UAV maintenance, training, and operational support

# Counter Unmanned Aerial Vehicles (C-UAV)

Arian Industries Bangladesh provides cutting-edge Counter-UAV (CUAV) solutions, leveraging partnerships with EdAir and other leading manufacturers to address modern aerial threats. Our integrated C-UAV systems are designed for military, critical infrastructure, and homeland security applications.

## EdAir Capabilities in C-UAV Solutions:

- Advanced detection and tracking systems for hostile UAVs
- AI-powered autonomous detection, interception and neutralization
- Electronic warfare solutions, including RF jamming and spoofing
- Kinetic and non-kinetic countermeasures for layered defense
- Modular and scalable solutions for fixed, mobile, and tactical deployment
- Very long range solution (3 KM +)
- Defeat range (1 KM +)
- Drone Locator
- Omni Directional
- Can be fixed or vehicle mounted for wide range mission specifics

# FURTHER CAPABILITIES

We deliver mission specific solutions tailored to our clients operational needs.

## Intelligence Products:

- OSINT, SIGINT, HUMINT, and GEOINT solutions
- Secure data analytics and real-time intelligence platforms
- AI-driven threat analysis and predictive modeling

## Technical Surveillance Countermeasures (TSCM):

- Detection and neutralization of covert surveillance threats
- Advanced RF spectrum analysis and counter-espionage tools
- Protection against electronic eavesdropping and cyber threats

## Arms and Ammunition:

- Supply of small arms, precision rifles, and heavy weaponry
- High-performance ammunition for various mission requirements
- Compliance with global standards and military-grade reliability

## Tactical Gear:

- High-performance combat and operational gear
- Night vision, thermal imaging, and communication systems
- Customizable loadout solutions for special forces and law enforcement

## Armor and Armored Vehicles:

- Ballistic armor for personnel, vehicles, and infrastructure
- Tactical and military-grade armored vehicles for various terrains
- Integration of active protection and surveillance systems

## EOD (Explosive Ordnance Disposal) Solutions:

- Advanced bomb disposal robots and detection equipment
- Counter-IED (Improvised Explosive Device) solutions
- Protective gear and training for EOD personnel

## Surveillance Solutions:

- UAVs, EO/IR cameras, and AI-based monitoring systems
- Secure command and control (C2) centers
- Mobile and fixed surveillance units for critical operations

## Specialized Training Programs:

- Tactical and combat training for military and security forces
- Cybersecurity, intelligence analysis, and counterterrorism programs
- Customized courses in EOD, TSCM, and surveillance operations

# Completed Projects and Active Industries

## Defense, Security & Aerospace

### Karnaphuli Tunnel Security Infrastructure

- Supplied and integrated 4 state-of-the-art Non-Intrusive Inspection (NII) Systems and a full Surveillance & Monitoring Suite for Bangladesh's iconic Karnaphuli Tunnel, ensuring uninterrupted security in this landmark infrastructure.

### Military Vehicle Supply Program

- Successfully delivered 200+ vehicles to the Bangladesh Armed Forces, enhancing mobility and operational readiness across multiple branches.

### Advanced Screening and Intelligence Equipment

- Supplied Millimeter Wave Body Scanners to Bangladesh Police for high-security checkpoints.
- Delivered IMSI Catchers to the Police Bureau of Investigation (PBI) for mobile signal interception and intelligence gathering.
- Deployed Counter-Surveillance and TSCM Equipment to various National Intelligence Agencies.
- Provided CBRNe Detection & Response Tools to Bangladesh Police, supporting chemical, biological, radiological, nuclear, and explosive threat management.
- Installed Baggage Scanners in multiple high-risk institutions and sensitive checkpoints.
- Supplied and deployed Integrated Surveillance & Monitoring Systems for KPI zones, border posts, critical infrastructures, and VVIP complexes across Bangladesh.

## Pharmaceutical Industry

- Strategic Shareholding in Desh Pharmaceuticals Ltd. Our Managing Director holds a major equity stake in Desh Pharmaceuticals, a GMP-certified pharmaceutical manufacturer in Bangladesh. The company does Toll manufacturing and caters to the rural areas of Bangladesh as a prime medicine manufacturer.

## Automotive Trading

- Import & Delivery of Over 25,000 Vehicles Nationwide. Played a key role in transforming the automotive landscape by importing and supplying 25,000+ vehicles to private, commercial, and government clients across Bangladesh. The company specializes in sourcing high-quality vehicles from Japan, Thailand, and the UK with seamless end-to-end logistics and registration services.

## Electronics Manufacturing & Trading

- Urban Electronics Assembly Facility (8,000+ Sqft). Established and currently operating a consumer electronics assembly plant in the heart of Dhaka. This facility supports the local economy and reduces import dependency by assembling electronics for globally recognized brands like Sony and Samsung, tailored to meet the needs of Bangladesh's mass population. Over 100000+ units of consumer electronics of different sizes supplied all over Bangladesh yearly.

## Real Estate Development

- Development of 10+ Prime Residential Projects in Dhaka. Over 10 landmark residential complexes in key urban zones of Dhaka, focusing on modern living standards, efficient architectural designs, and urban community development. These developments have contributed to Dhaka's urban housing growth and mid-to-upper-income residential demands.

# Completed Projects and Active Industries

## Garments, Apparel & Tactical Clothing

- Tactical and Consumer Apparel Manufacturing
- Operating multiple garment production facilities across Bangladesh, Arian Industries specializes in:
  - Manufacturing and supplying tactical clothing (jackets, uniforms, trousers) to the Bangladesh Armed Forces and Police.
  - Consumer apparel production for both domestic retail and export markets, contributing to the country's textile sector and earning valuable foreign exchange.

## Logistics, Maritime & Bonded Operations

- Ship Stores & Bonded Warehouse License Holder
- Possesses a licensed Ship Stores and Bonded Warehouse Operator, authorized by Bangladesh Customs. This enables us to supply bonded goods and provisions to international vessels, diplomatic entities, and bonded clients, playing a crucial role in supporting maritime operations, logistics hubs, and foreign missions in compliance with regulatory frameworks.

# Projects in pipeline

## Nationwide Non-Intrusive Inspection (NII) Project – PPP with Bangladesh Government

A landmark Public-Private Partnership (PPP) initiative led by Arian Industries Bangladesh in collaboration with global leaders like Varex Imaging Corporation (USA) and SGS (Switzerland), this project will digitally secure Bangladesh's cargo supply chain and modernize customs operations nationwide.

### **Project Scope:**

- Objective: Deploy a centralized, corruption-resistant screening model across all major land, sea, and air ports
- Key Features:
  - Installation of high-energy container scanners across entry points
  - Establishment of a Centralized Screening Cell where images are analyzed off-site to ensure anonymity and reduce on-ground manipulation
  - Nationwide logistics, operations provided by Bangladesh Navy
- Technology Partner: Varex Imaging (USA) – Global leader in X-ray and linear accelerator technology
- Local Integration & Service Partner: Arian Industries Bangladesh
- Implementation Mode: Public-Private Partnership under guidance from PPP Authority, Ministry of Finance

### **Strategic Impact:**

- Enhances national security and anti-smuggling efforts
- Increases customs revenue collection efficiency
- Reduces corruption and human bias in cargo inspections
- Lays groundwork for secure trade and logistics under WCO and WTO standards

### **Project Value:**

- 80 million USD + over 15 years.

# Projects in pipeline

## **Two Multi-Specialized Hospitals in – Chattogram and Dhaka, Bangladesh in partnership with Bangladesh Army**

- 600 Bed Multi Specialized Hospital in Chattogram and 500 Bed Multi Specialized Hospital in Dhaka.
- Memorandum of Understanding signed with Bangladesh Army for the projects.
- Ground breaking ceremony completed by Bangladesh Army Chief with Arian Industries Bangladesh
- Project is in preliminary stage currently with partnership and investment acquisition on-going.

## **Coast Guard Drone Surveillance Project**

Arian Industries Bangladesh is currently in talks to supply customized Unmanned Aerial Vehicles (UAVs) for the Bangladesh Coast Guard, enhancing coastal surveillance, maritime interdiction, and SAR (Search & Rescue) operations.

### Key Highlights:

- Customized tactical drone systems designed for coastal terrain
- Integration with command & control for real-time maritime threat monitoring
- Multi-role drones: Surveillance, Recon, Live Feed, Payload Delivery
- Currently under operational testing and phased delivery
